July 2008

Maryland Regional Meeting

On Saturday, August 9th, the Baltimore Local Unit hosted a regional meeting that was attended by members and prospects from Maryland, Pennsylvania, and Virginia. Chairman Gliebe was the featured speaker. There are plans to host regional and local Alliance meetings throughout the country, and any member who wishes to host a meeting in his/her area should email Chairman Gliebe at: erich@resistance.com or call him on his cell phone at 216-262-5988.

Essay Contest Winner Announced

We are pleased to announce that Ohio member Lars Cartwright is the winner of our recent essay contest, in which contestants had to write an essay outlining their plans in life to help further Our Cause. 20-year-old Lars has been an Alliance member for two years and is very active with the Cleveland Local Unit. Congratulations to Lars and our best wishes to him on a successful future!

Lars Cartwright's Essay

My five-point plan to further my race is as follows:

1. In order to preserve my race, I believe it's necessary to insulate myself from the popular "culture." In order to accomplish this, I will continue to dress like a White man and not a wigger. I will refrain from participating in forms of entertainment that encourage the downfall of our White European values. I will avoid borrowing money from primarily Jewish-controlled banks. Also, I will not donate to such organizations as Salvation Army and United Way, which sound well meaning, but are not really supportive of normal White families. 2. Teaching by example and letting my beliefs be known on the wickedness of popular "culture." By steadfastly refusing to compromise on my racial beliefs. Keeping physically fit by a persistent and vigorous workout regimen. Mental fitness will be maintained by abstaining from chemical abuse and continued expansion of knowledge.

3. Continued participation in formal National Alliance functions such as literature distribution, public demonstrations, and monthly meeting and conference attendance. 4. To further the Cause of the White race by becoming closer to my fellow National Alliance members and my family. I will continue to be a supportive member of our White community and encouraging others to do the same, which will promote unity and thus strengthening our commitment to each other and our race. 5. In order to pass on our genetic make-up, my plan is to eventually settle down with a nice White woman and raise a large racially conscious family. Contrary to popular belief, you don't have to have a six-figure income in order to have a big family. My plan is to spend more time instilling a sense of White racial pride into my offspring, instead of spending more money on material goods.

In conclusion, if all National Alliance members would follow this or a similar plan, we could take our nation back.

The Weaver Army Marches On

Michael Weaver, the one-man National Alliance activities machine from Columbus, GA – also known as the Weaver Army – continues to march forward. Michael, who had been concentrating on passing out our literature to White public officials, police officers, and other civil servants in his area, has now found a new designated target of his distributions: the parents of schoolchildren.

Michael has been handing out our fliers and pamphlets to White parents parked on side streets outside of city schools as they await to pick up their children leaving school. He has found many enthusiastic recipients in this manner, as many of the parents appreciate the opportunity to enlighten themselves to our message. Whether the parents are reading the material out of curiosity, boredom, or to gain valuable knowledge, our message of truth and hope will undoubtedly sink in and be passed on to their children. We salute the Weaver Army!

Activist Tips

Hard-working Sacramento Local Unit member Dereck B. continues to combine activism with leisure as demonstrated on August 9th at a local county fair he attended. Besides going to check out the entertainment, Dereck also distributed dozens of copies of the *Free Speech* newspaper and Alliance business cards. This particular county fair is overwhelmingly White.

He would either place our newspaper on picnic tables or hay bales where people are sure to sit, or place them on car windshields in the parking lot. Political organizations had booths there so Dereck picked out the local Libertarian Party booth to go talk to the staff. He shared the *Free Speech* paper with them and got a very positive reception. While distributing the papers in the parking lot, he came across a family man whom he gave a paper to and engaged in a friendly conversation and invited him to contact him personally.

Dereck also found good places for our Alliance business cards on the bulletin boards across the fairgrounds.

Dereck says, he much prefers to engage people in conversation in addition to giving them our materials. He feels the dialog really helps to establish a personal connection with the prospect and thereby demonstrate that the Alliance is indeed not just paper but people.

Dereck continues to provide all of us some fundamental tips on easy ways to distribute our message and promote Our Cause all the while we are doing something else. Dereck's activities show that promoting the Alliance doesn't have to be all work and no play. He enjoyed the fair and did something to help the Cause. The rest of us need to take his example and do that something!

New Las Vegas Contact

The new Alliance contact phone number for the Las Vegas area is (702) 722-2985.

Maryland Literature Distributions

Members of the Baltimore Local Unit have been active this summer in literature distributions in the surrounding suburban areas. Their activities have resulted in media exposure from local television stations.

Although the occasional "confused White resident" will complain about finding our materials on their driveway, many of the White Maryland residents are happy to know that there is an organization looking out for their interests. And because of the Local Unit's efforts, a number of the literature recipients are near the point of falling over onto our side of the fence and actively supporting Our Cause.

News Site Contributions

Cincinnati Local Unit Coordinator Robert Ransdell has been doing an excellent job maintaining our daily newssite, www.natallnews.com. However, we can always use more articles and current news stories that would be of interest to our readers.

If any member would like to contribute articles to the site, please email them to Robert at: robransd@yahoo.com. Please include a link from where you got the news story.

Elton Hall Feeling Better

Longtime Arizona member, Elton Hall, has healed well is feeling better after being hit by a car during a demonstration against illegal immigration. Ironically, the accident was caused by an invader from Mexico who smashed into a woman's vehicle, thus causing her car to hit Elton. Despite the setback and having been immobilized for a lengthy period, Elton has recently purchased one thousand National Alliance pamphlets and is looking to get active once again.

Elton would like to thank everyone who inquired about his status and he appreciates your support. Our best wishes go out to Elton for a complete recovery.

Attorneys Needed

We are always looking for attorneys to join and help us out with legal matters when in need. Not surprisingly, the legal profession has been the hardest area to recruit from, but we do see that changing as more and more White attorneys are becoming fed up with today's racial double standard in which Whites are on the brunt end. We don't necessarily need a good attorney to join the Alliance, but more importantly we need their support and expertise on legal issues.

So where do we start when it comes to recruiting attorneys? Well, we probably have numerous members who have a family member in the legal profession. That would be the most logical starting point.

We can also groom our own attorneys, as this time we have young student members who plan on studying law. And, of course, if you have children who haven't yet decided on a career, the legal field is an area you may want to suggest to them.

The battleground for the current and near future lies not in the streets, but rather in the courtroom. Right now, one miniscule Jewish attorney can wield vastly more power than any gang of tough streetfighters.

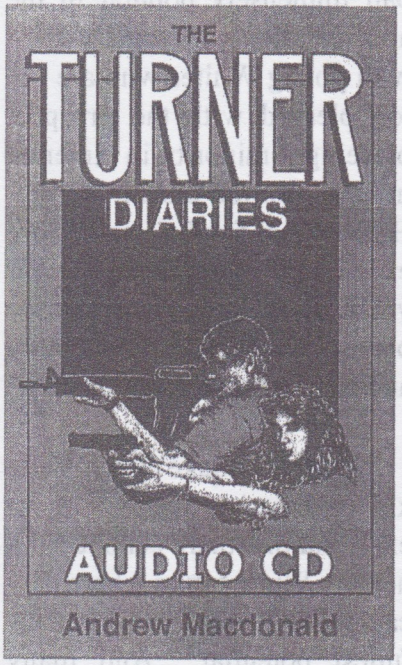
As we build our infrastructure, we will need supporters from all walks of life. But at this time, I see nothing more important than having solid legal support in every area of the country, on both the federal and state levels.

Book of the Month: *The Turner Diaries*

Featuring the voice of author and National Alliance founder Dr. William Pierce, this fictional medium, written in 1978, was Dr. Pierce's prediction of what life in America would be like if certain governmental policies weren't changed.

Certainly, *The Turner Diaries* has received more media attention than any other pro-White book in print. It is also the book most hated and feared by the gun-control crowd. *The Turner Diaries* is the book

proponents of "multiculturalism" and the New World Order have tried desperately to ban from bookstores, so that ordinary Americans will not be able to read it. Too many of the things predicted in the book have been coming true, they believe, and they're afraid that if more people read the book a pro-White revolution may become a fact! Approximately 10 hours.



Item # 2068 $32.00 Order from National Vanguard Books, P.O. Box 330 Hillsboro, WV 24946 USA or online at:

Quebec Activists Hit the Streets

Six Alliance supporters in the Canadian province of Quebec recently took to the streets distributing hundreds of fliers the morning after a race riot involving Hatian immigrants, which was ignited after a police shooting left a man dead. Apparently two police officers were attempting to arrest a non-White in a park on the north-east end of Montreal and then were surrounded by dozens of threatening gang members. The Haitians torched cars, shot a female police officer in the leg, and ransacked a fire station. The specially-designed fliers were posted to utility poles and bus stops in Chicoutimi, Montreal, and Quebec City. In Quebec City itself, more than 500 were distributed on that day, along with our "Love Your Race" fliers.

A big thanks goes out to all those who participated in this literature distribution, for having the courage and foresight needed to take advantage of a hostile situation thrown onto our lap.

High School Football Season Now in Full Swing

Members of the Cleveland Local Unit have had good success in distributing National Alliance and Resistance Records cards and stickers at high school football games. With high school football immensely popular in the area, the stands are usually filled with young Whites who are not too pleased with the prospect of being a minority in America in the not-too-distant future. High school football games are excellent venues to reach our youth, as the games are usually played outdoors in the evening and have a relaxed atmosphere.

We need to make every White kid in America aware that we exist and that there is hope for a healthy White future where they can prosper and live up to their fullest potential. And many of these alienated White kids, faced with the possibility of an eventual extinction of their biological kind, are more than eager to embrace our message and work for a better future.

Mount Jewett Swedish Festival

On August 9th, members from Mount Jewett and Altoona, PA took advantage of an annual Swedish festival in Mount Jewett to introduce attendees to the National Alliance and pass out information. The day started out with a cookout and the members then went to a parade and spoke to people who were quite willing to listen to what the National Alliance is about. One person joined that day, and others took the pamphlets home to read. This was somewhat of an informal activity, and served as a good gage as to the acceptance of the Alliance's message in the area.

Mount Jewett is a very small community of about 1100 people, most of who are of Swedish and German descent. Their yearly Swedish festival is usually on the second weekend of August. Mount Jewett is a friendly town in which one can feel right at home amongst the locals. There were Swedish dancers, ethnic food, and vendors selling traditional Swedish clothing, and every member thoroughly enjoyed the authentic White culture.

Staying Focused Commentary by Chairman Erich Gliebe

Summertime is full of all kinds of distractions: getting together with friends, entertainment, and so on. Summer is also the time when most people set aside some time for the family; people take off work for vacations, Mom and Dad are more likely to take the kids to the pool or out for a picnic, and everyone getting into the car to go to Junior's baseball game. A lot of folks think of summer as the season when things slow down a little, but in reality that's rarely the case. Because of this, it's easy to forget the position our race is in and the commitments we've made to helping salvage our people's position on this planet.

Some problems just work themselves out if you leave

them alone. One example of this that is appropriate for this time of year is a baseball player who is in the midst of a hitting slump. Sometimes, the harder the player tries to remedy the situation and the more advice he takes from various coaches and teammates, the worse the problem gets. Often, when a player finally comes out of a slump and is asked what he is doing differently now, he says with all honesty that he doesn't know; for some reason, he's just seeing the ball better. Many times, the best thing a slumping hitter can do is not worry about the slump and just play the game, and the problem will go away of its own accord.

Our racial situation isn't one of those problems that will just naturally work itself out. If the White race still had several large and homogeneous living spaces on the planet and the Jews weren't in such a position of power and influence, then perhaps an argument could be made that things just need to be left alone. But even then, I think we have passed the point in history when races can survive by just feeling their way blindly through the void. We need an overall strategy for the race, and we need as many White people as possible to buy into the program. In other words, as a race, we need to unify, get organized, and start carrying out a plan that will give us the best chance possible for survival and progress.

It isn't too much to say that the strong position of the Jews in the world today is due to their early recognition of their own racial uniqueness and for their formulating of a plan to preserve the Jewish race. Furthermore, not only do they have a plan, but they are quite determined in carrying it out to the detriment of the rest of us. We might despise the Jews for everything they do to hamper our own people's future, but their general approach is the same one that we must adopt: recognize our race's value, make a plan, and carry out the plan.

Now, obviously, the inherent differences between us and the Jews will result in a different

understanding and appreciation of racial uniqueness. In other words, we won't think of ourselves in the same way the Jews think about themselves. Let me give you an example. Race-conscious Jews think of Jews as superior to everyone else, whereas – despite the Jewish media's claims to the contrary – White racialists think about the White race as being unique; superior in some ways, certainly, but more importantly unique and worthy of preservation.

The difference here is subtle, but crucial. The historical and prevailing attitude of Jewish supremacy among Jews has led them to the conclusion that the rest of the world should essentially be enslaved to the Jewish race. Their historical writings verify this claim. And because of that belief, the Jewish plan of racial domination takes on a particular flavor, and their behavior throughout Gentile societies, past and present, is ample proof that they are quite determined to carry out that plan to rule the rest of us.

We Whites, on the other hand, think of our race in terms of uniqueness and worthy of preservation. True, there have been Whites throughout history who have wanted to dominate and rule in the same way that the Jews are trying to dominate and rule today. But, for whatever reason, that notion has changed among racialist Whites; we want to rule, yes, but it is our own racial destiny we want to rule, not other people.

In fact, the largest group of racially-conscious Whites who struggled mightily for the preservation of the race was the National Socialists. Contrary to the claims made by the Jewish media and "trained" historians, the pan-European National Socialists were not fighting to dominate others; they were fighting in order that Europeans would be free from communism and would have the living space to exist as White nations with White values. As a general policy, whenever the National Socialists came into contact with large numbers of racial aliens such as Jews and Gypsies, they drove them away or herded them into camps, cut off from

the rest of the White population. There were inevitable deaths, of course, but the primary motive was to separate the aliens from the Whites. That racial separation was the goal is clear from the fact that native Whites of nations that the National Socialists conquered, such as Poland and Norway, were free to remain in their countries unless they were political criminals. It was the aliens who were moved out, forcibly if need be.

Unfortunately, the pan-European National Socialists failed in their attempt to secure a free, White Europe. But the basic gist of the National Socialist plan for survival and progress remains with us today: separation from the other races. Possibly, as with the National Socialists, the implementation of that plan might require some violence, and history has no problem sanctioning a certain amount of violence in pursuit of noble ends. In fact, rarely have noble ends been achieved without some amount of conflict.

But our goal of racial separation doesn't mandate that we need to use violence at this time. There is a way to racial separation through peaceful means and negotiation. That's the avenue that we in the National Alliance have been pursuing for some time now, and we'll continue down that road for the foreseeable future; that's the plan we're going by at the present time.

But our plan can't be carried out by people who do things by halves. We need each and every one of you to fully support and promote the Alliance's worldview of racial separation. That doesn't mean we shouldn't enjoy summer in the wâys I mentioned earlier; it just means that we all need to contribute to the White racialist effort. We have the unique opportunity in history to make such a contribution, and it would be a shame to waste that chance. **–E.J.G.**
